French Reports of Victory of Important Progress at Italian Points in West

Most of Positions Captured Have Been Retained Despite Furious Counter Attacks—Italian Outposts in Sight of Trieste, One of Goals of Italian Ambition—Austro-Germans Continue Their Forward Rush Against the Russians in East Who Are Now Close to Their Own Border

By Bulletin Leased Wire.
LONDON, June 17.—In the west the French report important progress, which they have been making notwithstanding furious counter-attacks. They have taken the line of trenches on both sides of the Als. Soultz-Bouche, and the Germans still hold Pond de Hual, but cannot surround and besiege the trench, some of which they were obliged to abandon after bombardment and loss of which they held and enlarged.

Little has been learned from the Austro-Italian fighting. A late report received, however, states that Italian outposts are in sight of Trieste, one of the goals of Italian ambition. The Austro-Germans pushed on in Galicia has developed into a series of attacks on the Russian lines near Zarnovo, which were repulsed. UNITED STATES WILL GET \$1,500,000 FOR WAR MUNITIONS

By Bulletin Leased Wire.
NEW YORK, June 17.—According to estimates of the United States will receive one and a half million in 1918 for the sale of war munitions to the warring nations. The benefits to be derived by the United States from purchases by the allies can be summarized as follows: Great Britain \$500,000,000; Russia \$500,000,000; France \$500,000,000; Italy \$500,000,000. With a total as large as this the United States government could pay off its entire interest bearing debt and there would still remain a balance of more than \$500,000,000.

The Diamond from the Sky

The \$10,000 Prize Winning Story
(By Roy McCardell)

(Continued from Morning Edition.)

In the library on her floor later, Dr. Leander went over the chapter entitled "Listen to the truth," and the doctor "It is for you, you have a mission of the heart, and another which makes this book to be your death. You cannot hope to marry a wife who may yet be your death."

"I will never marry again!" cried Col. Stanley in answer. "I have loved but one woman, could love but one woman, and she is dead! But by heaven I will cast Lamar Stanley and all his brood to the winds! I will never marry again!"

"You have loved but one woman, could love but one woman, and she is dead! But by heaven I will cast Lamar Stanley and all his brood to the winds! I will never marry again!"

HAVE YOU SEEN TILLIE AT THE EMPIRE THEATRE?

"Have you seen Tillie?" is the question you are asked everywhere on the streets this week. It is occasioned by the exhibiting of "Tillie's Punctured Romance" at the Empire all this week. This side-splitting comedy, which has been presented at the Empire all this week, is one of the biggest vaudeville successes of the Pacific Coast. It is a comedy of the class of "The Great Train Robbery," which has been demanded by the theatre-going public in every town where it has been shown. AURORA RACING AT NOON TODAY

Continues in Another Quarter Performance This June

NORTH AND SOUTH WIRE ARE PREY TO VISITANT

Aurora Usually Occurs in Winter Months and Bursts East and West Wire

Winning, June 17.—Aurora, more numerous than winter, is constantly the visible manifestation of electrical storms in both tangles of all telegraph wires strung across the top of the continent, more especially those along the north shore of Lake Superior. There has not been such a complete break-up in the telegraph business between eastern and western Canada for a long time and possibly records for the month of June might be searched for many years back without finding a parallel. In fact well conducted aurora continue themselves to the fall and winter months and of all the months in the year June is most immune. The cause of observations in Scandinavia and Iceland, as well as the distinctive station, show no aurora at all. Aurora though on the North American continent, it is not so common, though still a rare June phenomenon.

Killed by Auroral Storm

Aurora manifestations are almost entirely confined to night, and these manifestations, whether visible or not, are commonly accompanied by magnetic north currents, and it is these properly that affect the wire. Usually with the morning sun the whole magnetic field, wires surcharged with electricity and vibrating currents are freed and released for the daily business and atmosphere overcast with electricity becomes normal. But the magnetic field is not so easily available data on the subject.

ENGLAND'S FOOD SUPPLY SHOULD BE ORGANIZED

London Times Turns Attention to Urging Need of Looking After Food Needs and Resources.

London, June 17.—The Times, editorially, calls attention to the need of the government organizing the national food supply in a similar manner to that in which it is now organizing the supply of munitions.

"Any idea that Germany is 'faced with starvation' may be shattered by the fact that Germany's food supply is secured for a long period. The fact that Germany is not a food producing country, and that it is only a temporary measure due to a combination of circumstances, which cannot be expected to continue."

Some scheme for calculating our own resources and reserves will be prepared in conjunction with our allies, and the government should be given the right to the firm and to the production of food by the board of agriculture, so as to obtain the best results and avoid needless waste."

BERLIN RECEIVES FAVORABLE REPORT

Washington, June 17.—(Press official news as to the receipt of the last American note to Great Britain, Ambassador Gerard to the state department, gave review of the favorable outcome of the mission and of the country.

The ambassador's report contained German peace proposals, which were friendly in tone. His comment on the press reports of the favorable impression made by the mission, and the sentiment seemed to be that it afforded a basis for an adjustment of the controversy.

Mr. Meyer-Greif, in Berlin, June 17, via London.—Dr. Albert Meyer-Greif, received from the German government, a letter to the effect that the German government had a projected conference with Premier Minister of Justice, Minister of Education, and the colonial office.

"The Next Enemy." Berlin, June 17, via London, 2.45 p.m.—The news of the German election in the German general elections of the 19th of June, from the Berlin press, which is in favor of the election of the allies, has proved an unpleasant surprise to the newspapers of Germany which, in the past, have reported that Premier Minister of Education, Minister of Justice, had a safe majority. The tone of the news is, however, not so optimistic. The German press publishes a headline over the news of the election, "The Next Enemy."

CHAPTER II OF FORMER SECRETARY W. J. BRYAN'S TO BE CONTINUED STORY

Washington, June 17.—According to that, the general view that the upheaval in Europe was the result of a failure of the American government to right, former Secretary Bryan today, in the second chapter of his three-part story, "The Cause of the War."

"If any nation is without excuse for entering a world rivalry with the United States, it is the United States," he says. "We are protected on either side by thousands of miles of ocean, and this protection is worth more to us than any number of battleships."

KILLED UNDER GANPLOW

Eight-Year-Old Boy Terribly Mangled in Runaway Accident on Farm Near Cornubian.

Cornubian, Ala., June 17.—As a result of a four-hour team attached to a runaway running away, the eight-year-old son of the late Mrs. W. J. Bryan was killed. The boy, who was cut off close to the body, his right leg and right arm were severed. The little fellow died within half an hour. The farm where the accident happened is fifteen miles south of Cornubian. The father went to the scene, leaving the boy sitting on the plow, holding the lines. The horses took fright and galloped away, the boy being thrown underneath the plow.

Fairview Wins Crucial Game In The Intermediate League

HUDSON'S BAY BEAT JOURNAL

Score in Last Night's Mercantile League Game Was 16-13—Lots of Hitting

The Hudson's Bay baseball team checked up another victory last night when they took a full out of the Mercantile league, beating the Journal club by a score of 16 to 13. The game was a free-hitting affair in which the pitchers had trouble of their own. Burley, Marston and Treadwell started the mound duty, but the Bay took kindly to the former's arm slants and assumed a commanding lead, and through hitting and partly owing to a busy day support by the Journal infield, Crawford replaced Marston towards the end of the game, and his speedy offerings were not so successful by the opposing batsmen.

Treadwell won the entire distance for the winners, and only one inning was he battered hard, in this frame Tom Young combined out a home run with the bases full, and materially decreased the lead accumulated by the Bay in the previous innings. Eddie Marshall had a long drive, while the work of the Hudson's Bay club never was a fielding drive. The new H.B. diamond is still a long way from being a fielding drive, while the work of the Hudson's Bay club never was a fielding drive. The new H.B. diamond is still a long way from being a fielding drive, while the work of the Hudson's Bay club never was a fielding drive.

WEST EDMONTON BEAT DUNVEGAN

The West Edmonton baseball team, whose schedule has been interrupted by the recent rains, got back in the game again last night, and defeated the representative of the Edmonton, Dunvegan club, in a good contest, the final score standing 4 to 4. Netting collected a nice game for the winners, and received good support. West Edmonton fans were out in strength for the contest, and the team would like to arrange further games with neighboring clubs. Last night's lineup follows:

West Edmonton—Haywood, cf; Stinson, 1b; Beattie, 2b; Bolander, ss; Wentz, 3b; Danforth, 4b; McConachie, cf; McNaughton, 1b; Neuring, p.

Dunvegan—H.R. Laine, p; Mayak, cf; Weir, 1b; Harch, 2b; Howard, 3b; Day, 4b; McCree, cf; Arnold, 1b; Creighton, 1b; Umpire, Calvert.
